

# BARRE DAILY TIMES

Published Every Weekday Afternoon.

Subscriptions: One year, \$3; one month, 25 cts. single copy, 1 cent.

Members of the Publishers' Press.—The latest telegraphic news from all parts of the world are received by the Daily Times up to the hour of going to press.

Frank E. Langley, Publisher.

Entered at the postoffice at Barre as second class matter.

WEDNESDAY, AUGUST 16, 1905.

The average daily circulation of the Barre Daily Times for the week ending Saturday was

**3,450**

copies, the largest paid circulation of any daily paper in this section.

Portsmouth, N. H., is a world famous city.

One hundred and twenty-eight years ago today blood ran red on the battlefield at Bennington.

Vermont had a distinguished visitor in her boundaries today in the person of Vice President Fairbanks.

Two of the usual summer plagues have been lacking this season—the drying up of the pastures and the drying up of the water supplies. Water still runs and drops.

"If you have money to bet, don't be afraid to place it on Bellows Falls," says The Times of that place. We should say that if you have money to bet, better put it to better use than betting.

## SAFETY.

The careless man is likely to keep his valuable papers, insurance policies, deeds and notes stored in his desk or in the bureau drawer, where they are not protected in case of fire and where they may be easily mislaid or overlooked.

The careful man avoids risk and worry by renting a

### SAFETY DEPOSIT BOX

in which he places all his valuable papers.

If you are going away for the summer be on the safe side and rent one of our Safety Deposit Boxes before you leave.

If you are not going away you need protection from fire and loss. In either case you should have one of our Boxes.

ONE CENT A DAY will pay the rent. Better DO IT NOW.

## BEEF, IRON AND WINE.

Beef, Iron and Wine is such an old remedy that we hardly need to mention what it is good for—everybody knows that—but few people realize that Beef, Iron and Wine is not all alike and that some mixtures called by that name are positively worthless as a medicine.

That which we make contains the proper amount of iron in its most easily assimilated form, strengthening beef extract of the best quality and the finest old imported wine. This preparation is reconstructive and a trial of one bottle will demonstrate its value.

## WHAT THE CITY IS DOING.

Continued from First Page.

street that will last for a number of years, at no great expense to the city.

In setting curbing and putting in paved gutters on the side hills, would ask the street committee to see that all obtuse and acute angles are done away with, and graceful curves made instead. I call it a poor piece of engineering to have those angles in any street, and should not be allowed more than a square corner on a street.

In curbing around the grounds of the Mathewson school building, the school commissioners have kindly consented to have the curbing put down so it will look well, and make the street look far better, having given considerable land to the street to have this done. Will be more pleasing to the citizens.

Gutters on side hills should be laid straight where practicable. Where not practicable, graceful curves should be made, and do away with those crooks and turns that are in some of them which should not be.

Would advise a flat cobble gutter at the junction of Perry and Washington street, raised high enough on the south side to protect sidewalk; then you will have something that will stay a lifetime against the rush of water coming down that street in a big rain storm, and in the spring thaws.

In regard to Elm street which is badly in need of repair, a stone wall need not be put in at Wendell Place this year; the street can be widened to necessary width; a plank sidewalk laid by driving in cedar posts, then continuing sidewalk to junction of Park street, and thus carry out promises made two years ago to the people living in that part of the city. Think Elm street extension can be made of a permanent nature at an expense of not over two hundred dollars—plough and scraper can do most of the work. Crown and bar it well, put on a covering of stone chips, say four inches deep, and roll it well where roller will reach. A good surface sewer from Peasut Row to Tremont street then, you will have a street that will last a while.

I notice the sidewalk on Main street in front of the Gas Company's office is in very bad condition, concrete is going to pieces, some bad holes. This should be attended to at once, as every day makes it worse. Several places on the sidewalks are in bad condition, and if not attended to this year, they will be beyond repair ere another year. Am not much in favor of concrete sidewalks, as can see they are going to pieces all over the city; they cost the city too much to keep them in repair. Trust the street commissioners will have those things attended to.

Hope we can do something in ward five before cold weather set in. Smith street is in need of repairs, and some others.

There is one thing plainly evident, viz., that the appropriations made for the care and maintenance of the streets are wholly inadequate; larger appropriations should be made for this purpose, then some good work could be done.

WILLIAM BARCLAY, Mayor.

Several city warrants were read and ordered paid.

The committee on streets reported numbers for Cambria street and they were accepted.

The committee on streets reported that Alex Carey & Co., who had applied for a permit to extend the Benedict house on Prospect street a certain number of feet, had purchased the property and had a deed giving them a portion of the street. It was recommended that they must be restrained from extending the building into the street. The report was accepted.

The committee on streets and city engineer reported in favor of awarding the contract for 15,000 paving blocks to Canton Bros. at \$33 a thousand. The report was accepted.

The residents of Dewey and Carleton streets submitted a communication suggesting the name of Liberty street, to settle the controversy over names. As the matter of naming the street was in the hands of the street committee and city attorney, it was voted to lay the communication on the table until they had reported.

The property holders of Dewey street petitioned for a concrete sidewalk. The petition was referred to the street committee to investigate and report.

A petition for the raising of the grade of a certain portion of Summer street was referred to the street committee. The contract with the M. Langfeld Granite Co. for paving a portion of North Main street was read and ordered executed, if approved by the city attorney.

The contract for cross walks and catch basins, with the M. Langfeld Co. was referred to the city attorney for approval.

The contract for 15,000 paving block, with Canton Bros., was read and ordered referred to the city attorney for approval.

The charity committee through Alderman Adie stated it desired to have the Mitchell matter disposed of and cleared up. He said that the charity committee found there was \$116.50 due her from the sale of her farm, and it was voted to pay the same to her.

Superintendent of Streets Bruce made a number of suggestions relative to the poor farm, that the manure from the fire station ought to be used in fertilizing the farm there, which raised 30 tons of hay this year. The matter was referred to the cemetery committee.

### WILLIAMSTOWN.

Drury Bros. have just added ten cows to their dairy.

Wallace Hunter of Northfield is visiting old acquaintances here.

Orvell Bosworth and John Riddel were in Barre yesterday on business.

Mrs. Frankum of Montpelier is with her sister, Mrs. O. D. Bosworth for a few days.

Miss Doris Kanaly of Montpelier is spending the week with her aunt, Mrs. George Wilber.

Mr. McLeod of Barre has just begun work at his new shop, just completed by Eugene Call. Mr. McLeod is well known by the people here and may well expect a share of patronage.

Perley Sanders found one of his horses dead in the stall Monday morning. It had evidently not been sick, as there was no signs of any struggle and it was thought heart failure was the cause of death.
